Bart was finally captured on a cold, rainy night when I was able to sneak up on him with a matted, dirty mess, so overgrown and matted that he was starting to have trouble walking. By the time I learned about Bart, he was almost unrecognizable as a dog. His fur was a net, while he slept against one of the tombstones. Once he realized we would not hurt him, Bart became a sweet, lovable cuddlebug. He was adopted and a much loved and pampered little dog for the rest of his life.

Bart was abandoned in a cemetery in Northeast Philadelphia, where he lived as a stray for over a year. He was very scared of humans and would not allow anyone to get close enough to catch him, although many tried.
